# ➤ DOMESTIC MEMBRANE

*ultimate choice of purification*  
**FS-TFC®**  
 Membrane

- Big Flow and Hi-Rejection Domestic membrane
- Big Flow membrane sheet specially for Indian market
- Unique rolling technology

## Test Condition:

- Test under the condition that the water temperature is 25o C, the concentration of NaCl is 500ppm, PH is 7.5, and the above recovery and operate pressure.
- The water production of one membrane is on the balance of +/- 15% of the average water production.
- The rejection is at least 95%

**FS-TFC**®  
Membrane

- Lower operating costs with condensate recovery and higher water reuse
- As an industrial customer, you are always trying to reduce water and energy costs, improve process efficiency, and meet stringent discharge limitations. Industrial membranes from FS-TFC can help you:
  - Reduce salinity and chemical oxygen demand (COD)
  - Purify oily effluents
  - Remove chemical contaminants
  - Recover acid steams
  - Clean-up hot condensates
  - Pre-concentrate streams prior to evaporator
  - Reduce wastewater volumes by increasing water reuse
